Nagesh R

Student

nagesh9686256580@gmail.com 9686256580 Bengaluru, India

www.linkedin.com/in/nagesh-r-a605a9323 github.com/Nagesh0036u

CAREER OBJECTIVE

AI & ML student skilled in Python, SQL, Machine Learning, Computer Vision, NLP, and Data Analysis, with experience building real-time AI and web applications.

EDUCATION

Bachelor of Engineering and Technology in AIML 2023 – 2027
Aditya College of Engineering and Technology Bengaluru,India

Pre University Course 2021 – 2023
Mangalore Pre-University College Bengaluru,India

SSLC 2020 – 2021
Vishwa Bharathi High School Bengaluru,India

SKILLS

Programming
Python , Java, C++, C

Tools
Vs code, IDLE, Eclips, Figma, jupyter, code blocks , Basic Git , NumPy, Pandas, Scikit-learn, TensorFlow

Web Technologies
HTML,CSS

Databases
SQL

Concepts
Machine Learning concepts , Deep Learning (CNNs, RNNs, Transformers) , Data preprocessing, Model deployment

CERTIFICATES

- AIML Technologies-DTC infotech
- Python for Data Science-NPTEL-60%
- Business Analytics with Excel-Microsoft
- JavaScript Fundamental

LANGUAGES

- English,Hindi,Kannada

PROJECTS

Offline Voice Command Deck
- Built an offline voice-controlled desktop assistant for PC automation using speech recognition.
- **Tech Stack**: Python, Streamlit, Faster Whisper, Speech Recognition, WindowsAutomation

AI Resume Screening & Job Match Analyzer
- Developed an AI-based ATS resume analyzer that compares resumes with job descriptions.
- **Tech Stack:** Python, Streamlit, Scikit-learn, NLP, Pandas, Plotly, Cosine Similarity, PyPDF2

Heart Health Analyzer
- Developed an ML application to predict heart disease risk from health parameters.
- **Tech Stack:**Python, Scikit-learn, Pandas, NumPy, Random Forest, Pickle, UCI Heart Disease Dataset

Smart Hearing Protector
- Built a real-time system that detects unsafe noise levels and alerts users.
- **Tech Stack**: Python, Flask, JavaScript, HTML5, CSS3, Pycaw, Multithreading, GitHub

STATWISE AI — AI-Powered Learning Platform
- Developed an AI-powered learning platform interface for competency assessment, skill-gap identification, learner management, and personalized learning workflows.
- **Tech Stack:** React, TypeScript, Python, FastAPI, PostgreSQL
